

# Mission: Teamwork

We are developing a great team spirit!

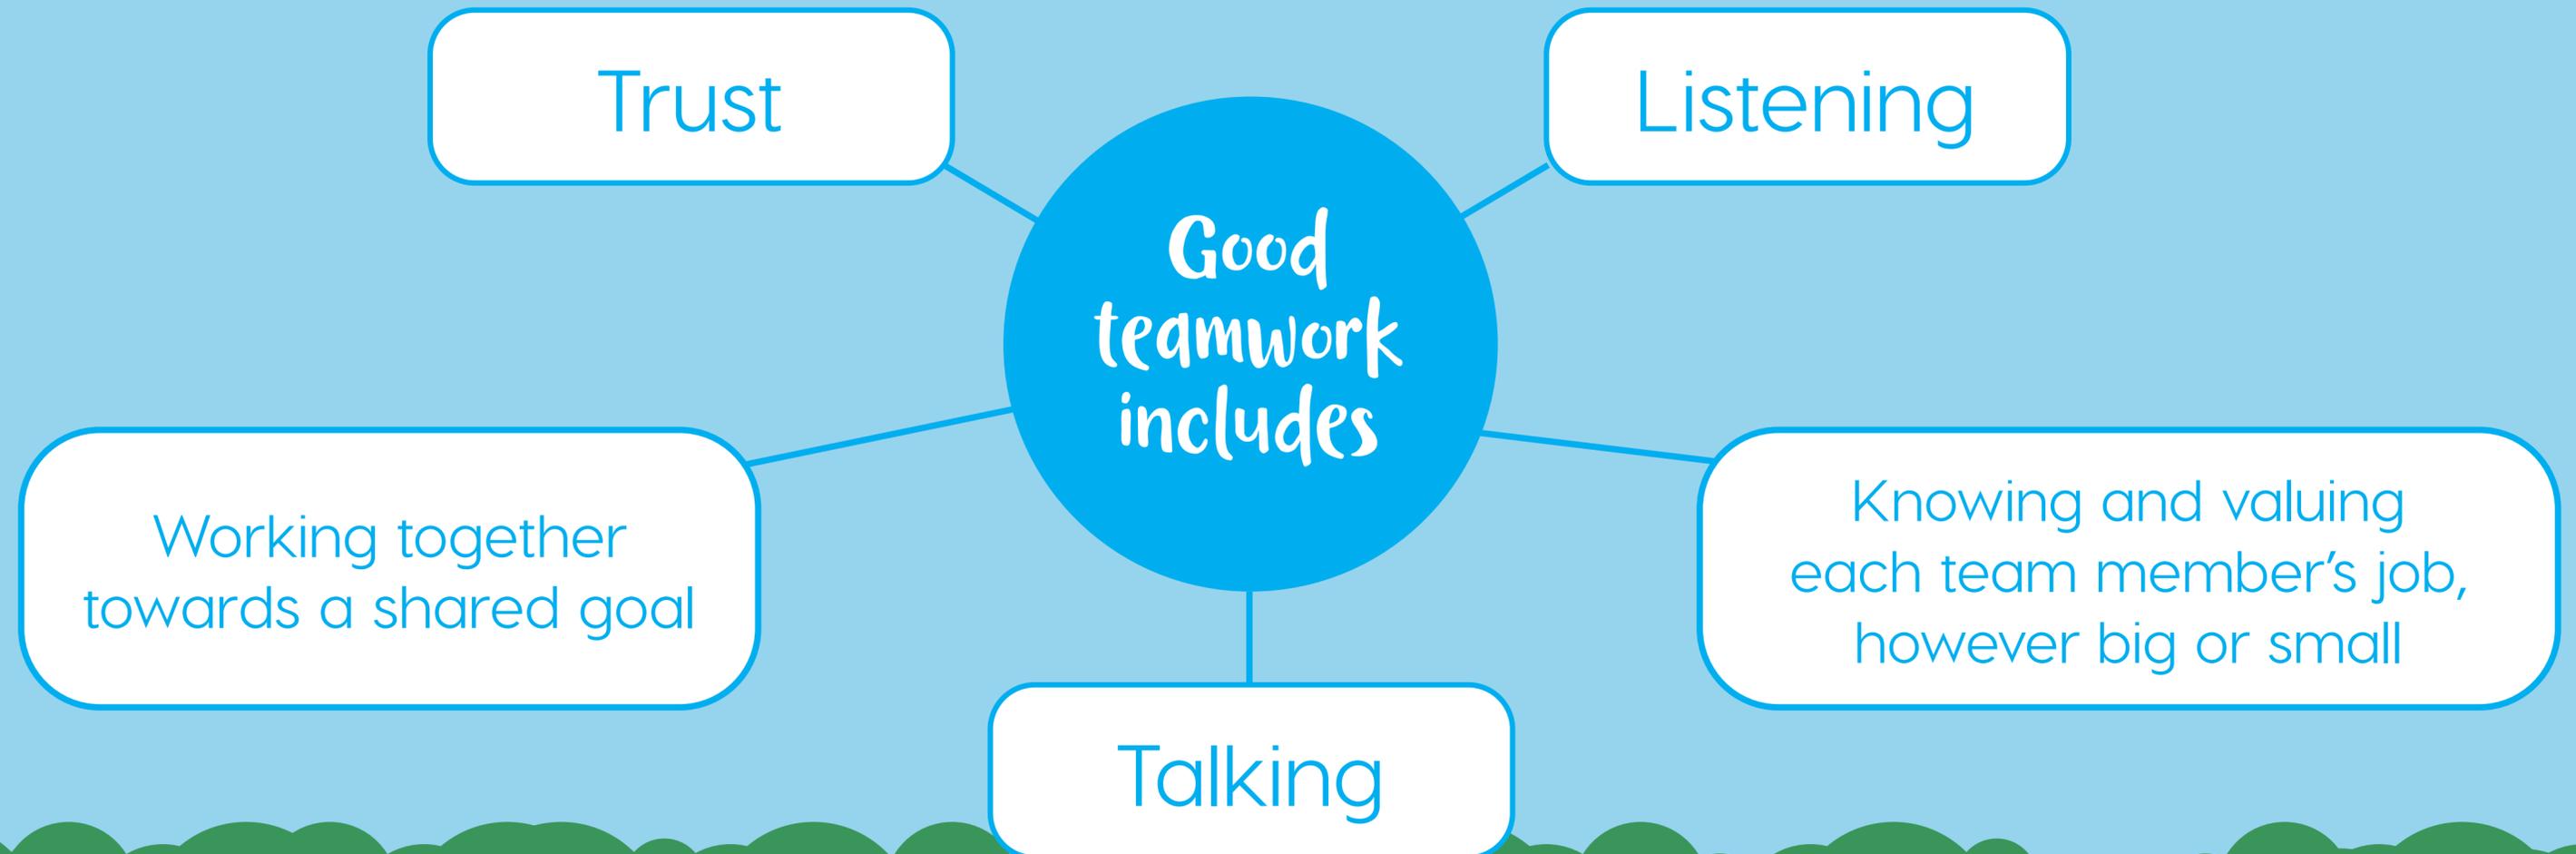

We will look at team spirit and how it can help us to be our very best when working with others.

# What is teamwork?

Good teamwork is needed in many different situations.

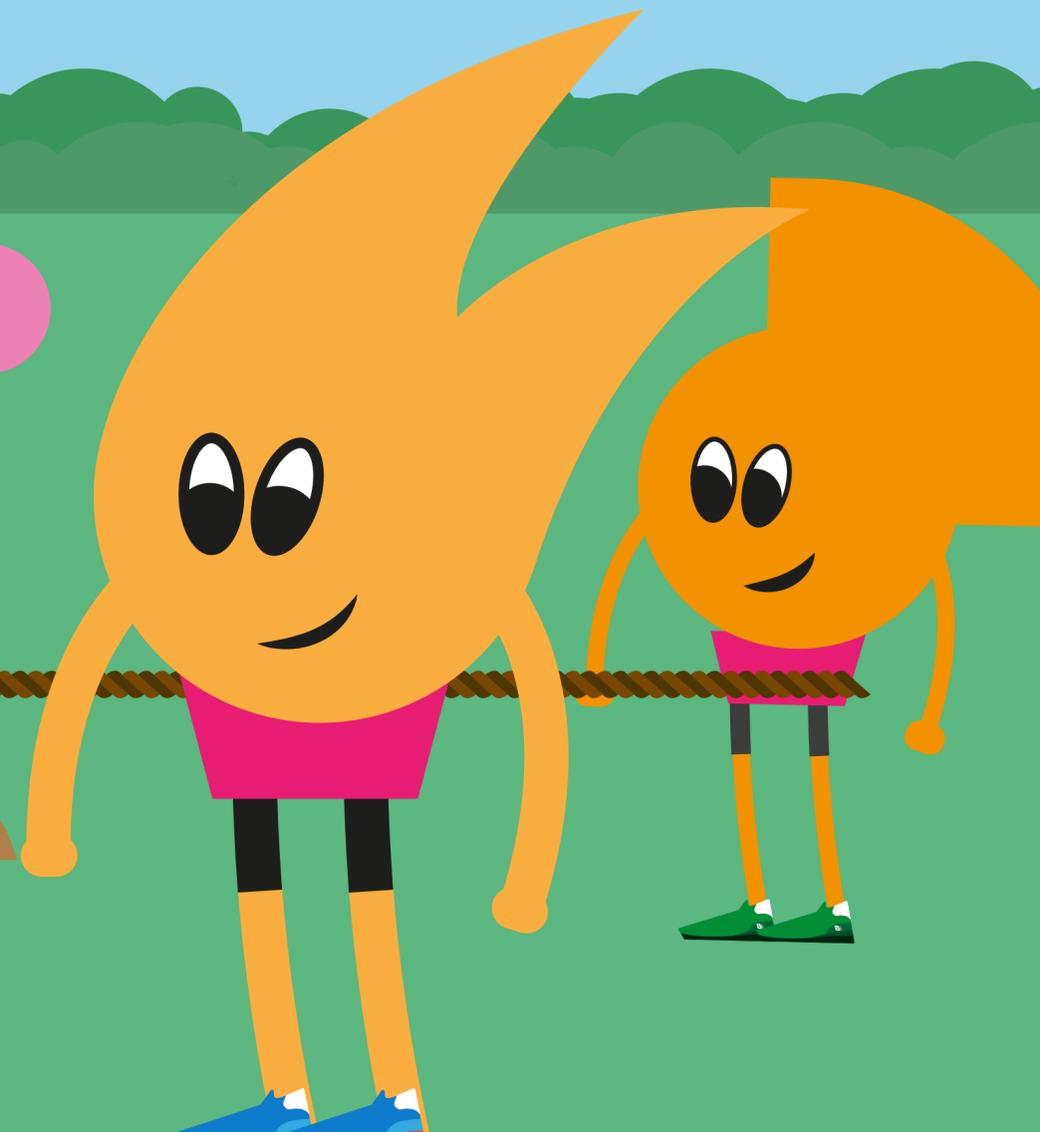

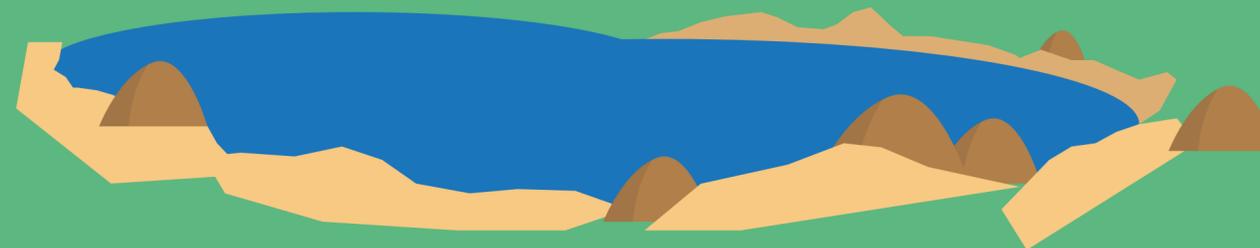

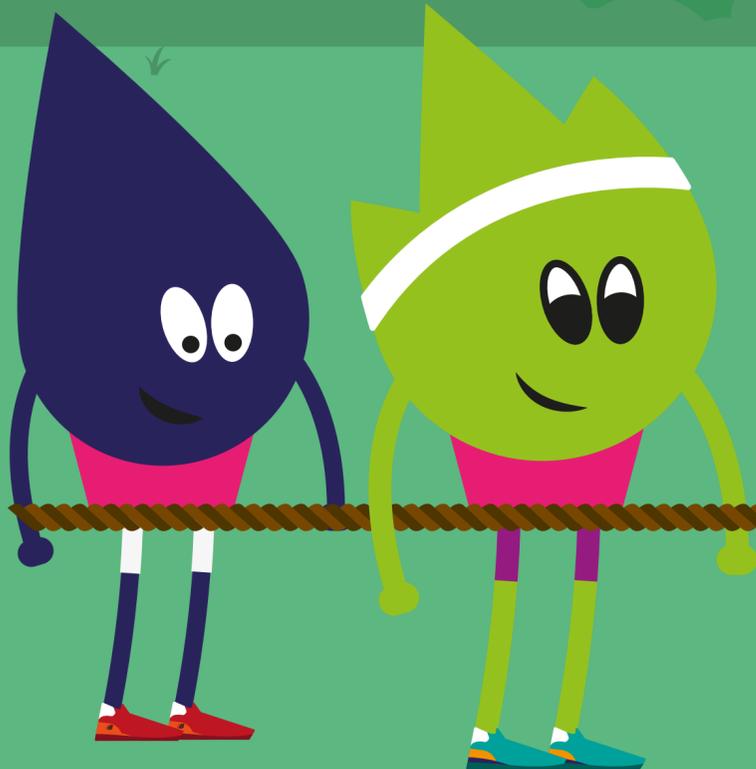

# Can you think of any teams where teamwork is important?

We thought of...

Medical Team

School Staff

Tug of war

# Teamwork

# But what about team spirit?

**Pride**

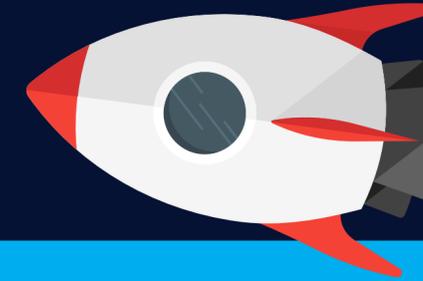

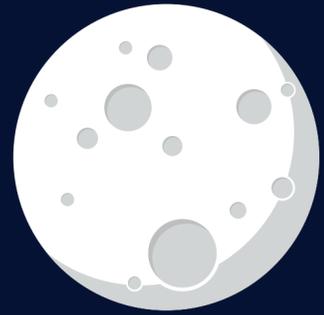

**Loyalty**

Team spirit is the feeling of:

It helps teams be the very best they can be.

Enthusiasm that exists in a team and that makes them want their team to do well and be their very best.

# A true story showing team spirit

In 1961 the USA President John F. Kennedy was visiting NASA where space missions are planned.

At the space centre, he introduced himself to the caretaker who was mopping the floor.

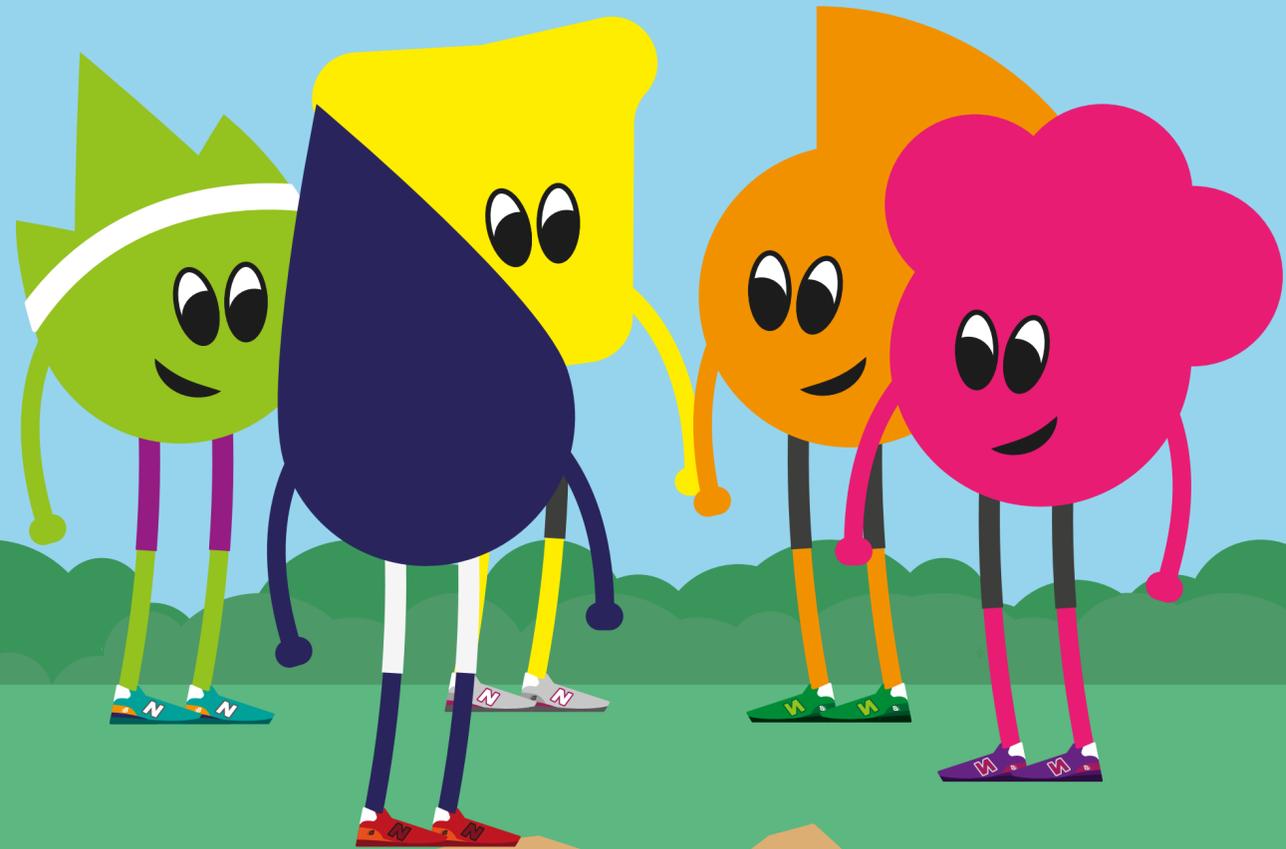

He asked him what he did at NASA. The caretaker replied, "I'm helping put a man on the moon!"

He was proud, loyal and enthusiastic about his role in the team getting a man on the moon, even though he was not the astronaut or an engineer making a rocket.

He was part of the team and he showed great team spirit.

Why not show team spirit at break time or lunch  
and have a go at some fun team challenges?

We will be  
moving more and  
sitting less.

**What is  
our Challenge?**

We challenge you to show and recognise great team spirit at school, at home or any activity and record it on your **MISSION TRACKER.**

Try running as part of a team and encouraging each other.

**And don't forget**

*to run your Daily Mile!*
